ABOUT ME

I am a Front-End Developer specializing in **React.js**, I build dynamic, responsive web applications with a focus on performance and user experience. Proficient in **HTML, CSS, JavaScript, Git, and GitHub,** I ensure efficient code management and collaboration. Experienced in using **Figma for UI/UX design**, I create visually appealing interfaces. I am dedicated to delivering clean, maintainable code and seamless cross-device functionality.

EDUCATION AND TRAINING

CS102: Introduction to Computer Science II
Saylor Academy [10/10/2024 – 20/10/2024]

City: Mogadishu | **Country:** Somalia | **Website:** www.sayloracdemy.com | **Level in EQF:** EQF level 5

DIGITAL SKILLS

Programming html5 / With 7+ years of experience in CSS (Tailwind CSS, SASS, Less) / HTML5 / CSS3 / Javascript / React.js / Git / Github / Figma / Responsive Design

PROJECTS

[11/09/2024 – 13/10/2024]
E-Learning Website
The Modern E- Learning project is a responsive web application built with ReactJs, Tailwind CSS, and JavaScript. It features a modern design with interactive elements, offering users a virtual tour of a contemporary apartment. The layout is fully optimized for seamless performance across all devices. The project highlights a clean, user-friendly interface and smooth navigation for an engaging user experience.

LANGUAGE SKILLS

Mother tongue(s): Somali

Other language(s):

English

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION A2 **SPOKEN INTERACTION** A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

WORK EXPERIENCE

Frontend Web Developer
Freelancing [09/05/2021 – 12/08/2024]

City: Mogadishu

Developed and maintained responsive web applications using React.js, ensuring seamless performance across all devices.
Collaborated with cross-functional teams (designers, back-end developers, and project managers) to deliver high-quality, user-friendly interfaces.
Implemented UI/UX designs from Figma and other design tools, transforming wireframes and mockups into interactive, pixel-perfect web pages.
Optimized front-end performance by writing clean, efficient code and applying best practices for load times, responsiveness, and user engagement.
Managed version control using Git and GitHub, facilitating smooth collaboration and code review processes within the development team.
Participated in agile development cycles, attending daily stand-ups and sprint planning to ensure timely delivery of features and improvements.
Ensured cross-browser compatibility and conducted testing to ensure consistent functionality and design across various platforms and devices.
I was working **40 hours/ week.**

CREATIVE WORKS

[12/10/2024 – Current]
Restaurent Website
The Restaurant Website project is a responsive site built with ReactJS, Tailwind CSS, and JavaScript. It features an interactive menu, online reservation system, and contact page with a map. The design is optimized for both mobile and desktop devices for a seamless user experience. This project showcases my ability to create dynamic, user-focused websites.
